MEMORANDUM FOR THE RECORD

SUBJECT: Trip to [] on 7-8 February

25X1

The undersigned visited [] primarily with regards to new work to be done in the field of antitank rockets.

25X1

A discussion was held wherein it was decided that the contractor would submit two proposals for an antitank rocket. One proposal calls for only a design which can be manufactured in the field; the other for a sterile design to be manufactured in the USA.

A review of ED-110, Lined Cavity Charges was undertaken and it was suggested that work on improvised shaped charges be expedited in this program. In addition, the design of the [] container should be expedited.

25X1

The contractor was requested to conduct a study pertaining to liquid explosive capabilities for use in providing DI/D such information.

The General Manager was requested to visit this office in the near future to discuss additional work. He will be here on 21 February 1957.

Two copies of the revised Incendiary Manual were brought back by me. In addition the [] lightweight powered drill was hand carried and turned over to [] Reynolds at National Airport, 8 Feb 57.
